Languages

English (Professional)

Chinese (Native)

German (Basic)

Certification

AWS Certified Solutions Architect – Associate

Education

Technische Universität Berlin
(2013–2018, Germany)
M.S. Geo Information

National Taiwan University
(2010–2012, Taiwan)
M.S. Computer Aided
Engineering

Projects

🌐 LetterOn

AI OCR app for physical letter extraction and classification using FastAPI and LLMs

🌐 RagEasy

AI Agent with RAG for Natural language query using Python, LangChain, and ChromaDB

Summary

Engineering Leader with 9+ years of hands-on experience building scalable platforms and leading high-performing teams in FinTech and HealthTech. Proven track record of driving multi-million euro AUM growth and 15% conversion gains through mission-critical, AI-enhanced solutions. Adept at bridging tech execution with business priorities while ensuring secure, high-performance, fully compliant system delivery.

Professional Experience

Ahead Health – Senior Product Engineer

Zurich, Feb 2026–Apr 2026

- Optimized Blood/MRI reports data pipelines using BAML on GCP. Planned and implemented Membership system MVP, rapid prototyping with Supabase.

Moonfare – Engineering Manager / Staff Engineer

Berlin, Feb 2020–Sep 2025

- Led 8+ engineers across full-stack domains, served as the primary bridge between business stakeholders and engineering to align technical roadmaps.
- Designed and delivered high-impact workflow orchestration features with strong product mindset, collaborating closely with stakeholders to gather requirements and prioritization, resulting in 10-15% lead-to-user conversion improvement and multi-million euro AUM growth, reduced manual work by 200+ hours annually.
- Architected scalable React app using Redux and advanced hooks, improved render time by 20% and maintained a shared design system for UX consistency.
- Tuned services and optimized SQL queries, reducing API latency by 15% to 20% across critical endpoints while managing SQL and NoSQL datasets.
- Designed 5+ microservices using event-driven patterns and DDD principles, leveraging AWS, Lambda, and SQS for decoupled and resilient infrastructure.
- Established CI/CD (GitHub Actions) and testing strategies; integrated AI tools into the daily development workflow to boost team velocity and code quality.

PlusDental – Software Engineer

Berlin, Jul 2018–Jan 2020

- Migrated platform from MERN to Next.js and GraphQL. Rebuilt mobile app (React Native). Implemented i18n across 5 countries reaching 20K+ users.
- Improved UI/UX with PageSpeed scores from 50 to 80+ and TTT under 800ms.

HeroBear – Lead Full-Stack Software Engineer

Berlin, Apr 2016–Nov 2017

- Led end-to-end app development with Node.js, React Native, and MongoDB.

Nokia, HERE – QA / Release Engineer (Intern)

Berlin, May 2015–Mar 2017

- Supported E2E tests, release, and development for map project with Samsung.

Skills

- **Languages:** TypeScript, JavaScript, SQL, Python, C++
- **Frameworks/Tools:** React, Next.js, Node.js, NestJS, FastAPI, GraphQL
- **Infrastructure:** AWS (Lambda, SQS), GCP, GitHub Actions, CI/CD, Terraform
- **Databases:** PostgreSQL, MySQL, MongoDB, DynamoDB, Redis
- **Management:** Tech Roadmap, Agile, Mentoring, Security, Prioritisation
- **AI:** Agentic Workflows, Skills, RAG, Prompt Engineering, Harness Engineering
