

Nan Fang-Ying

Senior / Staff Software Engineer – AI Systems

nanfangying1@gmail.com | [LinkedIn](#) | [GitHub](#) | Zurich (Swiss Permit B) | +41 76 796 5606

Summary

Senior / Staff Software Engineer with 9+ years building and leading production software across regulated FinTech and HealthTech. Skilled at turning ambiguous business problems into rapid prototypes, production architecture, and shipped AI and agentic products. Delivered 10–15% conversion gains, multi-million-euro AUM growth, and 200+ hours of annual automation while building LLM workflows, agentic systems, event-driven services, and cloud platforms.

Professional Experience

Independent – AI Product Engineer / Agentic Systems

Zurich, Switzerland | Apr 2026 – Present

- Built and launched LetterON (see Projects), a production-grade AI document platform that transforms complex official documents into actionable workflows, combining LLMs, OCR, payments, privacy, and mobile delivery.

Ahead Health – Senior Product Engineer

Zurich, Switzerland | Feb 2026 – Apr 2026

- Shipped a brownfield membership MVP within weeks, integrating hundreds of existing users, Stripe payments, legacy treatment purchases, and membership-based discounts without disrupting live patient operations.
- Productionized BAML pipelines on GCP, transforming blood-test and MRI reports into structured application data.

Moonfare – Engineering Manager / Staff Engineer

Berlin, Germany | Feb 2020 – Sep 2025

- Led an 8-engineer team while remaining hands-on, partnering with product and business stakeholders to turn ambiguous, high-impact business requirements into scalable technical roadmaps and production systems.
- Owned discovery and delivery of workflow automation, improving lead-to-user conversion by 10–15%, contributing multi-million-euro AUM growth, and eliminating 200+ hours of annual manual work.
- Architected and optimized a large React application and SQL-heavy backend, reducing render time by 20% and API latency by 15–20% across critical investor-facing operational workflows, dashboards, and reporting surfaces.
- Designed and built 5+ event-driven microservices with DDD, AWS Lambda, and SQS to decouple critical workflows.
- Built CI/CD, testing, and AI-assisted workflows, improving delivery quality, release confidence, and team velocity.

PlusDental – Software Engineer

Berlin, Germany | Jul 2018 – Jan 2020

- Migrated from MERN to Next.js and GraphQL, delivering i18n across 5 countries serving 10K+ users.
- Improved frontend performance, increasing PageSpeed scores from 50 to 80+ and reducing TTI to under 800ms.

Nokia HERE – QA / Release Engineer (Intern)

Berlin, Germany | May 2015 – Mar 2017

- Supported E2E automation testing, release engineering, and development for a Samsung mapping product (C++).

Projects

LetterON – Independently designed, built, and deployed end-to-end.

- Built a multimodal AI agent for complex official documents, combining Gemini Vision OCR, structured outputs, reasoning, multilingual translation, classification, validation, and action/deadline extraction.
- Designed async AI jobs with idempotency, authenticated workers, retries, metering, refunds, and observability.
- Shipped a full-stack AI SaaS across web and mobile using React, FastAPI, Vercel, GCP, and Supabase.

RagEasy

- Built a local-first document RAG assistant using Python, LangChain, Vertex AI, ChromaDB, and Ollama, with semantic retrieval and LLM-based answer relevance evaluations.

Skills and Certification

- Certification:** [AWS Solutions Architect – Associate](#)
- Languages:** TypeScript, JavaScript, Python, SQL
- Frontend:** React, Next.js, Redux, Tailwind CSS
- Backend:** FastAPI, NestJS, REST APIs, GraphQL
- Infra:** AWS, GCP, Docker, Terraform, Vercel, CI/CD
- Databases:** PostgreSQL, MySQL, MongoDB, Redis
- AI Engineering:** LLM Workflows, Agentic Systems, RAG, BAML, MCP, Evals, Gemini, Vertex AI, Ollama
- Leadership:** Roadmaps, Mentoring, Security, GDPR, Compliance, Stakeholder Management

Education

Technische Universität Berlin – M.S. Geo Information

Berlin, Germany | 2013 – 2018

National Taiwan University – M.S. Computer Aided Engineering

Taipei, Taiwan | 2010 – 2012
